

Промени в правилата на секция "М"

1. Отпадат ограниченията за Li-Po и LiFePo- виж таблицата.
2. Вехите на триъгълника да бъдат с диаметър и височина по 20см.
3. Забранява се връщане при пропускане на веха. За първа пропусната- плюс 5 секунди, за всяка следваща- минус една обиколка.
4. Стартирането в клас FSR-E става към долна дясна веха (както е при FSR-V).
